Open House Day **January 18th, 2008**

After the Official opening of the American Corner in Tetovo, on January 18th, 2008, we planned an Open House Day, so citizens of our city can stop by and inform about the activities and services the Corner has to offer. We were surprised by the big numbers of people that showed a huge interest for the Corner. We informed them what an American Corner is, what are the activities for this month, what can the Corner do for them and other staff related with the Corner.

Then they had the opportunity to sign for the membership cards and becoming members of the Corner. During the Opening day we signed 30 new members and they all where of different ages started from students, professors and others that speak English.
