In Observance of Martin Luther King's Day January 21st, 2008

Book Display, Poster Show and Video Showings at the American Corner Skopje

The American Corner Skopje organized a book display, poster show as well as a video showing in observance of Martin Luther King's Day. All of the members who came that day were given handouts on Martin Luther King's Dream of Racial Equality and a publication. The documentaries "The March" directed by James Blue and Martin Luther King "I Have a Dream" were showed in the background so that the members could become better acquainted with the life of the great Martin Luther King. Those who wanted to find out more about him were referred to the other resources available at the American Corner.
