Во борба против трговија со луѓе, 8-ми Март 2007

4Ward thinking...

On March 6, 2007 the U.S. Embassy in Skopje and the Macedonian NGO “For Happy Childhood” launched the anti- trafficking-in-persons (TIP) media campaign “**I am stronger than the traffickers think.**” The goal of the campaign is to raise the public’s awareness of TIP, and to provide TIP victims with information on assistance and psychological support resources. The campaign includes TV spots on prime time TV, billboards, and newspaper and bus ads that will run through April 6, 2007.
