Presentation at the American Corner Skopje

Study in the USA Undergraduate Seminar

July 14th, 2009

Advising counseling sessions are part of the advising activities of the American Corner Skopje. Twelve children from the NGO "Sumnal" came to the Corner to get informed about educational opportunities in the US. Since they were of different age, Gordana Mircic, the educational adviser divided the seminar in 2 parts. The children who are in their first or second year of high school were informed about and encouraged to apply for the American Council's YES exchange program, whereas the juniors and seniors got to find out what the application process is like when applying to a university in the US. Each of them received the "Study in the US" booklet as well as handouts with useful websites. They were all invited to come back to the Corner to attend presentations or make an appointment for an individual advising session.
